## **European Council: agreement on support to Ukraine. EU Bishops (COMECE), a sign of continuity in our “efforts to support” the country “devastated by the war”**

The Bishops of the European Union too applaud the 50 billion euros' support package for Ukraine that the 27 Heads of State and Government agreed on yesterday. In a brief comment sent to SIR, Comece (Commission of the Bishops' Conferences of the European Union) wrote: “We welcome today's agreement on the Ukraine Facility, a key element of continued EU solidarity efforts with war-torn Ukraine. We encourage EU leaders to maintain their unity and to remain committed to the European project”.
