## Netherlands: COVID-19 infections on the rise. Bishops release video to support the faithful and invite to prayer

A video message of support from the seven Bishops of the Netherlands and the Military Ordinary was released on the Dutch Catholic Channel [katholiekleven.nl](https://www.katholiekleven.nl) today. As the country is facing an “alarming” rise in infections, new restrictions were imposed by the government. On Friday, 9 October, the Bishops called on parishes and religious communities to reduce the number of people allowed to attend individual celebrations to 30.
